## **DIRECTORS' REPORT**

The directors present herewith their report and the audited financial statements for the financial year ended 31 December 2022.

### **The purpose and mission of the Foundation**

The purpose of the ILCU International Development Foundation (the Foundation) is to increase financial inclusion and reduce poverty by supporting sustainable credit unions that empower people and their communities.

The mission of the Foundation is to help alleviate poverty in developing countries by supporting credit unions and their representative bodies as a means for socio-economic development through the provision of financial and technical assistance.

The main strategy employed by the Foundation to achieve this purpose and mission is co-funding long term programmes with developing credit union movements in selected countries.

The Foundation shares the Irish movement's knowledge and experience from within the Irish Credit Union movement with countries keen to develop or initiate their own credit unions. The Foundation uses its experience and expertise to provide an appropriate transfer of skills to our partners, helping them to develop sustainable credit union movements and procedures and practices to alleviate poverty.

The characteristics of this support include:

- Financial and technical support and training provided on a broad range of financial co-operative issues at micro (communities and members); meso (credit unions and apex bodies) and macro (apex bodies and governments) levels;
- Digital Finance and IT Support;
- Capacity building of financial co-operative movements, including apex organisations;
- Maximising aid effectiveness through knowledge management, exchange programmes and the development of local capabilities to deliver technical expertise;
- Poverty focus and emphasis on poverty reduction is core to the Foundation's programme and partner selection process.

### **Foundation Strategy 2020-2024**

The overall aim of the Strategic Plan (2020-2024) is to continue to improve the quality of the Foundation's work in assisting international credit unions to build financial inclusion and reduce poverty in low-income developing countries. The scope of the strategy was agreed by the Board of Directors and generating the plan involved all staff, local partners, external stakeholders including the Department of Foreign Affairs (DFA) and other key international external funding agencies.

The Foundation's strategy focuses resources into 6 specific areas (highlighted in bold below) to help the Foundation meet its purpose and mission:

- Working closely with dedicated local partners and credit union movements in the **core countries** of Ethiopia, Sierra Leone and The Gambia, we will assist in building an equitable financial environment for all by providing access to affordable and ethical financial services through the credit union model;
- Investment in three specific areas of strategic development that will impact the nature of our work in our partner countries: **Digital Financial Services; South-South Technical Assistance** and **Social Impact Measurement;**
- Implementing necessary measures to ensure the sustainability of the organisation as a whole: **Business Development** and **Communications and Fundraising.**

## **DIRECTORS' REPORT – continued**

### **Progress toward Strategic Priorities 2020 – 2024**

1. *Stable and growing movements, with effective structures that offer modern and relevant financial services aligned with members' socio-economic aspirations in the Ethiopia, Sierra Leone and The Gambia.*

**Ethiopia:** The Foundation's direct work in Ethiopia is at the macro level where it provides financial and technical assistance, for the development of regional apex organisations and appropriate tiered regulation and supervision in partnership with the Ethiopian government. The Foundation partners also with Self Help Africa to support the establishment and development of rural credit unions.

**Sierra Leone:** The Foundation's work currently supports the Sierra Leone credit union movement at all levels - the micro; meso and macro levels. This support is provided with direct financial and technical assistance through the Foundation's implementing office in Sierra Leone, ILCUF Ltd., in partnership with Irish Aid (Civil Society Fund) through the Department of Foreign Affairs (DFA); our Sierra Leonean credit union partner, National Cooperative Credit Union Association (NaCCUA); and German partner DSIK (Deutsche Sparkassenstiftung für Internationale Kooperation).

**The Gambia:** The Foundation has a long history of support and involvement with The Gambian movement and continued to build on that work through its Partnership Framework Agreement with the apex body, National Association of Cooperative Credit Unions of the Gambia (NACCUG), to continue that support, notably in the areas of digital finance and capacity building in compliance.

**Other countries:** The Foundation continued its work on contextualisation and delivery methods of a core credit union curriculum for staff and volunteer board members in 2022. In the current year, the Foundation with its formal partnership with the African Confederation of Co-operative Savings and Credit Associations (ACCOSCA), commenced a number of initiatives to support institutional strengthening and capacity building of both ACCOSCA and the Foundation, so both organisations can better support their shared vision of promoting financial inclusion in Africa, through the development of strong, secure and sustainable credit unions movements.

2. *Integrate digital financial services into our technical assistance offered to our partners, and all digital services will be driven by an assessment of members needs and demands.*

The Foundation has continued to invest in personnel and resources in order to integrate digital financial service assistance in to its support programmes for core countries. In practical terms in 2022, significant work has taken place with our partners in Sierra Leone and Gambia to review respective MIS (Management Information Systems) to advance the automation of credit unions in both countries. A key long-term focus of this work is that the Foundation will assist with providing the West Africa credit union movements more sustainable IT solutions.

3. *Building the capacity of local and regional consultants to deliver high quality and effective Technical Assistance through the South-South Technical Assistance (SSTA) programme.*

In 2022, the SSTA focused more on utilising a small number of dedicated credit union experts to support our work in the three countries and using their expertise to develop the capacity of our local partners. For the year ahead we will re-look at how to best enhance the use of SSTA as part of our work.

4. *Systematic, regular and robust impact measurement techniques and tools will be employed to measure the ongoing social, economic and community benefit of credit unions for the communities they serve.*

An assessment tool deployed in Sierra Leone measured 'depth of outreach' (i.e. the poverty level) of the member. Over 600 records were assessed drawing on household socio-economic/poverty data, and household consumption-based coping information. This produced data on the poverty level of the household. Overall, 55.7 % of the observed CU member households lived below the national household poverty line.

**DIRECTORS' REPORT – continued**

**Progress toward Strategic Priorities 2020 – 2024 – continued**

The observed households of female CU members showed higher poverty levels compared to households with male membership; 48.3% of households with male membership lived below the national poverty line compared to 59.3% for the female membership. The Irish Aid funded programme in Sierra Leone integrates 'social performance' objectives and metrics at the CU level to promote a focus on poverty eradication and social matters. These include measures such as embedding practices that promote participation, pro-poor outreach & inclusion; a focus on member benefit; ensuring representative governance; and engaging proactively on community and environmental issues.

5. *Develop new and ongoing external business development partnerships with partners and institutional funders who share the missions and goals of the Foundation, notably in respect of poverty alleviation in low-income developing countries, and who respect the social and community focus of the credit union model.*

The Foundation has an important project support contract for its work in Sierra Leone under its existing collaborative Partnership Framework Agreement with DSIK to support its work in Sierra Leone, which both parties are looking to expand in 2023. The Foundation also has a 3-year Memorandum of Understanding with Irish Aid for a DFA co-funded programme 2021-2024. Opportunities for new funding support streams are being consistently monitored. The Foundation is also in active discussions with a large international donor to access significant funding for our activities in Ethiopia in 2023.

6. *Ongoing use of dedicated personnel and effective and strong communication tools and Fundraising opportunities to engage with the Foundation's core Irish Credit Union funding base and, increasingly, the wider public, in order to ensure the Foundation has access to the funds needed to provide the planned support.*

In 2022 the Foundation continued to share the Irish credit union experience to support credit union development in three low-income developing countries. With COVID restrictions eased we were able to engage with more with our core funders - Irish credit unions - and we continue to grow our online presence to engage with the wider public.

2022 saw the return of in-person events including: CUMA's Spring and Autumn conferences, the ILCU AGM and visits to credit unions. The visits to credit unions allows the Foundation to thank the credit unions and discuss our on-going work, and we have seen an increase in the amount of credit unions who want to publicise their support of our work.

In April, our donate button went live on the Foundation's website. This is to allow individuals/credit union members to donate directly to our work through a secure platform. In addition to this the Foundation successfully applied to receive donations through the Meta platform allowing direct donations and individuals to set up fundraisers in support of our work via Facebook and Instagram.

A fundraising initiative in support of Ukraine raised almost €25,000 in addition to the €50,000 committed by the Foundation Board.

The second CU Challenge took place in October and had over 25 Irish credit union teams participating. The Challenge helped to raise awareness of the Foundation's work and also raised over €15,000 for our work.

In overall terms 2022 saw an increase in annual donations from credit unions, and our core funding was up approximately 7% on 2021.

## **DIRECTORS' REPORT – continued**

### **2022 Highlights - Activities, Impact and Main Accomplishments**

The Covid-19 global pandemic, regional conflict and the cost-of-living crisis continued to effect the countries where the Foundation operates in 2022. However, adaptive programming, a greater role for and reliance on national staff and partners, as well as increased utilisation of technology meant that developmental support for local credit unions continued largely on course. Thus, the Foundation was able to successfully continue to implement its strategic objectives and advance its programmes in its core countries. The Foundation is very grateful to Irish Aid and the Department of Foreign Affairs; and to other donors including the DSIK, supporting credit unions, and their staff and friends who generously raised and donated funds for the Foundation's work.

#### *Sierra Leone*

In 2022, the first of a three-year Irish Aid funded programme entitled 'Step Up' was completed. The aim is to improve the financial security and socio-economic situation of credit union members and their communities. There was significant overall progress at the member, credit union (micro), apex (meso) and regulatory (macro) levels in 2022. Despite challenges posed in particular by the cost-of-living crisis, most of the targets for Year 1 of the programme were achieved. There were 14 micro/meso/macro targets in total, of which 11 were fully achieved, two were partially achieved and one was not achieved (postponed).

Overall CU membership stood at 14,772, per-member savings grew strongly (in the local currency) and the average loan size also increased. Total credit union savings amounted to Le 14.3 billion (approx. €776,000) compared with a base of Le 8.6 billion (approx. €728,813) at the end of 2021. The smaller increase in the Euro equivalent is due to a collapse of the exchange rate. Average savings were €52 and the average loan was €188 in 2022. 64% of the membership was female, just over 50% of the membership live in rural areas, and 56% of observed CU member households lived below the national household poverty line in 2022.

The continued roll-out of Graduation Microfinance (GMF) focusing on solidarity group lending was targeted at the vulnerable poor who do not have the means to become full CU members. There were a total of 1,606 GMF members in 2022, 87% of whom were women. Over the course 2022, GMF expanded from 8 to 11 CUs reflecting the increased demand from CUs to offer it as a service to poorer individuals.

The initial phase of the deployment of a system-based record keeping solution known as 'EasyBooks' was undertaken in 2022. A substantial volume of preparatory work was undertaken and a Proof of Concept was completed in one credit union. This system will strengthen CUs in the areas of reporting, monitoring and risk management.

To further enhance the safety and soundness of CUs, a Standard Rulebook (which is like a supervisory instrument) was developed. It has the support of the Department of Cooperatives and the Central Bank of Sierra Leone. Additionally, policies and procedures were developed in 2022 such as a CU Bookkeeping & Accounting Policy, a Central Financing Facility Policy and a Membership Policy. The Loan Portfolio Management policy, developed under the previous phase, continued to be actively rolled out. For effective implementation, the national CU league - NaCCUA - developed a new strategic plan which seeks to institutionalise the Standard Rulebook for CUs, advance the legal framework for optimal CU growth and improve messaging around this and other confidence instilling measures.

A cornerstone of a credit union system is the annual audit. Both members and regulators rely on an audit to certify the financial situation of the credit union. This is a key focus area under Step Up. Annual CU audits have been undertaken for 20 credit unions, and a system of more harmonised audit standards and procedures was promoted.

## **DIRECTORS' REPORT – continued**

### **2022 Highlights - Activities, Impact and Main Accomplishments – continued**

#### *Ethiopia*

The Foundation continued supporting key areas of the sizeable Savings and Credit Cooperative ('SACCO' – local term for credit union) movement in Ethiopia in 2022 including prudential regulation and supervision and the development of regional SACCO federations. In addition to financial support, the Foundation has provided technical assistance in the areas of regulation development, central financing facilities and business planning. ILCUF has also obtained some additional grant funding for office equipment and training support for the Addis Ababa SACCO Federation.

In 2022, the Addis SACCO Federation and Amhara SACCO Federation had teams in place providing CFF and audit services to members and SACCOs. The Federations engaged in and delivered training and undertook activities to develop strong relations with their members. The Federation team in Amhara have increased the capital and savings of the federation from approximately ETB 25 million (€480,000) to just over ETB 30 million (€575,000) in 2022. Some of this is used as a Central Financing Facility for on-lending. The Addis Federation reported a small surplus in 2022 of €1,800. In Addis Ababa, the Federations' member Unions support 50 primary SACCOs with 22,891 members (11,903 female (52%) and 10,988 male (48%)). In Amhara, the Federation has a membership base of 50 Unions.

Prudential regulation and supervision in 2022 focused on piloting inspection exercises in five regions (Addis Ababa, Amhara, SNNPR, Sidama and Oromia). It is estimated that 31 Unions and 192 large SACCOs were inspected by the end of 2022. The strategy for roll-out involves educating senior government officials along with inspectors from the regions, delivering similar training for the selected Unions and SACCOs, and conducting the inspections at SACCOs or Union level. To deliver on this programme, training materials were developed, a series of training workshops were hosted, programmes of inspections were carried out and review workshops were conducted. Based on review workshops as well as technical advice from the Foundation, a legally binding directive was produced.

Additionally, in 2022 the Foundation continued its collaborative partnership in Ethiopia with Self Help Africa (SHA). This work focuses on the institutional and financial sustainability of four Unions and support services they provide to their member credit unions / SACCOs, while simultaneously increasing SHA's local capacity to provide suitable technical assistance. The membership of the SACCOs under the Unions is 89,317 (M: 44,270 F: 45,047). The 3-year project (2020-2022) continued to be implemented bringing the Unions to the level where they can independently contribute to the development of a sustainable rural finance system and increase financial inclusion of smallholder farmers.

The conflict in northern Ethiopia has critically affected the CU movement in the affected areas as well as the participation of Tigrayan personnel (from the north) in the programme. On 2 November 2022, a peace treaty was signed between the government of Ethiopia and the Tigray People's Liberation Front where both parties agreed to a permanent cessation of hostilities. The ceasefire appears to be holding, despite significant outstanding issues such as the presence of Eritrean forces in northern Ethiopia.

#### *Ukraine*

The Foundation launched the Ukraine Support Fund in March shortly after the invasion began. The Board committed €50,000 to show solidarity with the people of Ukraine and to help in any way we could. Thanks to the generosity of a small number of credit unions we raised almost €20,000 in additional funds, and Moore Ireland committed €5,000 to support the credit union movement. The fund was used to support the Irish Emergency Alliance who were working on the ground supporting the humanitarian efforts, and the Ukrainian National Association of Savings and Credit Unions, to support their operations for a six month period.

## **DIRECTORS' REPORT – continued**

### **Staff and Volunteers**

The Foundation has an active and growing network of credit union volunteers who support our work by providing technical advice to our partners and promoting/fundraising for the Foundation in Ireland. In Q4 2022 with COVID challenges reducing, the Foundation re-commenced its volunteer coaching programme for West Africa and got a very positive response for the Irish credit union movement. The Board acknowledges with gratitude the work of its staff and that of its volunteers in 2022. The major achievements during the year are due to the dedication, belief and commitment of all of these people.

### **Governing Document**

The ILCU International Development Foundation was incorporated on 20 April 1989 and is a company limited by guarantee not having a share capital and having a registered office at 33-41 Lower Mount Street, Dublin 2. The Foundation is exempt from corporation tax. The objects of the Foundation are charitable in nature with established charitable status, (Charity Number CHY 9704 and Charities Regulatory Authority Number 20024314.) All income is applied solely towards the promotion of charitable objectives of the Company.

The Constitution of the Foundation is the fundamental governance document of the Foundation. The Board of the Foundation acts as the governing body. The Board is committed to maintaining the highest standards of corporate governance and full compliance with the Charities Governance Code.

### **Appointment of Directors**

All five Board members are non-executive directors, with three directors appointed from the Board of the Irish League of Credit Unions (ILCU). The remaining two Director positions are filled from outside the ILCU Board. The Directors, as a consequence, are from a broad mix of backgrounds, the intention being to have a Board with a wide mix of competencies and qualifications, with a particular emphasis on securing Directors committed to development issues, and those with knowledge and experience of the credit union environment. The Board also recognises the necessity to include on its Board, Directors with other business and financial expertise where possible.

It is Board policy to ensure that the Board refreshes itself on a regular basis. In this regard, directors retire in a manner that ensures that there is continuity of knowledge and expertise on the Board, without permitting Directors to serve for an unduly long period.

Consistent with this approach, the Board recognised the need to increase its own scope to broaden its skillset and it approved to co-opt an external person to attend Board meetings. In line with this, the Board has recruited an adviser with expertise in international development to provide input and advice at its Board meetings. This Volunteer Board Advisor does not have voting rights.

### **Directors' Induction and Training**

New directors receive formal induction and are provided with appropriate information relating to the Foundation's affairs, including its financials, policies, strategies, corporate governance and risk exposures.

### **Decision Making**

There is a clear division of responsibilities between the functions of the Board and those of the Foundation's Senior Management. The day to day management of the Foundation is delegated by the Board to the CEO. The Board is responsible for providing leadership, setting strategy and ensuring control. Notwithstanding the level of delegation to management, the Board accepts that it has the primary responsibility to ensure that the Foundation is effective and is achieving its strategic objectives consistently.

The Foundation has a clear and defined process for reporting management information to the Board. The Board is provided with regular information, which includes key performance and risk indicators for all aspects of the organisation. The Board meets regularly and otherwise as required with a minimum of six Board meetings annually.

## **DIRECTORS' REPORT – continued**

### **Decision Making – continued**

The Board cannot, under the governing documents, receive remuneration for services to the Foundation, and may only be reimbursed for approved expenses arising from the fulfilment of their duties as Directors.

### **Risk Management and Internal Control**

The Board recognises and accepts that there are significant risks associated with the operations and activities of the Foundation. They acknowledge that those risks facing the organisation must be identified, monitored, reported on, and managed. The Board accepts the responsibility for ensuring sufficient resources are made available to management so as to minimise the risk of adverse event occurrences affecting the Foundation's operations, personnel, and beneficiaries. The Board reviewed and updated the Foundation's overall Risk Management Policy in 2020 and all policies are reviewed annually.

Detailed risk registers have been established for all key areas of the Foundation's operations – including at Headquarter (HQ), programme, and country-programme level – and key responsibilities within the organisation for the act of updating of identification, monitoring, and reporting of risk have been assigned. Senior management prepares an updated consolidation of all HQ/programme/country-level risk reports which is reviewed and acted upon quarterly by the Board. Detailed programme risk registers are maintained for all Donor funded programmes.

The Board has identified the following major risks:

- The ongoing risk posed by the sustainability of sufficient income levels from credit union donations and institutional grants has been exacerbated by the economic uncertainties caused by several factors including COVID-19, Ukraine-Russia war and the cost of living crisis. The Board has responded to this risk by putting Business Development and Communications and Fundraising as key strategic priorities in the Foundation's strategy 2020-2024 and committing to provide the resources necessary to ensure income from these two critical sources continues in a balanced way. The Foundation continues to successfully diversify income in 2022 through the new CU Challenge and broadening its base of institutional funders. The Foundation monitors its long-term commitments on an ongoing basis to ensure adequacy of funding at all times to meet such commitments and the Board has ensured the Gus Murray Endowment Fund is maintained at levels necessary to ensure this.
- The risk to the safety and security of Foundation personnel is elevated due to the particular economic, social, political, environmental and health environments in which the Foundation operates and the global Covid-19 pandemic. The Board acknowledges its duty of care to ensure safe, secure and sustainable access to these environments and has committed to adhere to Irish Aid guidelines for NGO professional safety and security risk management. Personnel are explicitly required to comply with all relevant policies; procedures and guidelines and to have an active role in ensuring their own safety and security.
- The ongoing risk of difficulties accessing the key personnel to ensure effective and uninterrupted delivery of programmes and the ability to position those personnel where needed has become more of a challenge due to the general challenges in the labour market, which have been compounded by the impacts of COVID-19. The Foundation's new strategy focuses strongly on building local and regional capacity within Africa to provide effective and high-quality technical advice to African credit union movements through the SSTA programme. The continued and improved use of remote working platforms in 2022 has enabled the Foundation to expand access to a wider pool of talent and skills and to provide greater capacity building support to local staff in core countries and to improving peer-to-peer support. At all levels HR measures are being implemented to ensure the recruitment and retention of high calibre, motivated staff.

## **DIRECTORS' REPORT – continued**

### **Risk Management and Internal Control– continued**

- There are inherent risks in the management of programmes and flows of funds which must be mitigated by sufficient internal controls and monitoring. Management is charged with ensuring regular reviews of all aspects of programmes and the Board periodically commissions an external review of the effectiveness of internal controls in the Foundation.

The directors recognise the Board's overall responsibility for the organisation's systems of internal control and for reviewing the effectiveness of these systems. The Board actively oversees the internal control systems of the Foundation to ensure they provide reasonable assurance of identifying and addressing risks adequately; that relevant policies and procedures are consistent with best practice and that they are regularly reviewed and adopted. The Board has delegated responsibility for the implementation of this system of internal control to management and to executive management of the ILCU Foundation. This system includes financial controls, which enable the Board to meet its responsibilities for the integrity and accuracy of the organisation's accounting records.

In 2022 the Foundation Board completed an annual review of important policies and procedures using its new Annual Governance and Compliance Manual.

The Board is also cognisant of the fact that no system of controls and policies and procedures will ever be sufficient to eliminate risk and has undertaken to foster a strong ethical outlook throughout the organisation. The Board has introduced a mandatory Declaration of Conduct and Ethics for all personnel in the Foundation and Implementing Partners of the Foundation in order to help promote highest standards of ethical behaviour at all levels.

### **Financial Instruments, Financial Risk Management Policies and Strategies**

As the Foundation relies on its incoming resources and its reserves to finance its operations, its financial instruments are confined to a government bond, a corporate bond fund, short-term deposits, and cash and liquid funds. The Foundation does not trade in derivatives or other complex financial instruments. Furthermore, the Foundation has a formal investment policy for its capital reserves which was updated in 2022 stating that funds can only be invested in 100% capital guaranteed investment products.

The Foundation is exposed to each of these financial risks is summarised as follows:

- **Credit Risks:** This is the risk that the banks holding the Foundation's current and deposit accounts may not be in a position to repay on the funds deposited. In addition, there is a risk of default in relation to the Foundation's government bond and corporate bond fund. The Foundation manages this risk by assessing the banks where cash deposits are held and by monitoring external credit ratings of the relevant banks on a regular basis. The Foundation also engages with its external investment advisor in respect of external credit ratings of its government bond and the credit ratings of the underlying bonds included in the corporate bond fund.
- **Foreign Exchange Risks:** The Foundation receives the majority of its income in Euro however significant amounts are received in foreign currencies (mainly Sterling and US Dollars). Where appropriate these amounts are transferred immediately into Euro on receipt. The Foundation's overseas programmes are primarily committed in Euro but a US Dollar balance is maintained to fund US Dollar commitments. Our project partners' activities are currently denominated in three local non-core currencies and this by its nature may spread foreign exchange risk to the Foundation. However, the risk to the Foundation is currently judged to be minimal and is actively managed and monitored on an on-going basis

## **DIRECTORS' REPORT – continued**

### **Financial Instruments, Financial Risk Management Policies and Strategies – continued.**

- **Interest Rate Risks:** The Foundation's assets are managed by third parties in line with the Foundation's investment policies. Investment management meetings are held regularly with the Foundation's investment adviser to ensure compliance with the investment policy in place. Interest rate risk is the risk that the value of future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Foundation is exposed to interest rate risk as it invests in an Irish government bond and a corporate bond fund.
- **Liquidity Risks:** This is the risk that the Foundation will have temporary deficits in its cash flow in terms of meeting its day to day commitments. This generally arises from timing differences between income flows and expenditure outlays. The Foundation's liquidity is managed by holding deposits on short call notice, and by retaining sufficient designated reserves to cover cash flow requirements. When absolutely necessary, the Board can approve the securing of short term overdraft facilities with the Foundation's bankers; this has not arisen in the current year.
- **Price Risks:** The Foundation is exposed to price risk arising from fluctuations in the value of its Irish government bond and its corporate bond fund as a result of changes in the market prices and risks inherent in all investments. The risk is managed by the Foundation maintaining an appropriate mix of financial instruments and adopting a conservative investment policy.

### **Compliance with Sector-Wide Standards**

As part of Foundation's efforts to improve its work, the Directors and staff of the Foundation monitor and engage with all legislation, standards and codes which are developed for the sector in Ireland. Currently the Foundation subscribes to the following standards:

- The Charities Act 2009
- Charities Governance Code
- Dóchas Code of Conduct on Images and Messages
- Charities Institute Ireland's Triple Lock Standard
- Comhlámh Code of Practice for Volunteers
- Irish Aid Guidelines for NGO Professional Safety & Security Risk Management

The Foundation has reported to the Charities Regulator in 2022 the Foundation is in full compliance with the Charities Governance Code.

## **DIRECTORS' REPORT – continued**

### **Financial Overview of the Foundation in 2022 and Future Developments**

The Foundation recognised total income of €943,020 for the year ended 31 December 2022 (2021: €1,225,571) which includes total realised income of €1,144,104 (2021: €1,257,956). The difference of €201,084 (2021: €32,385) relates to mainly to unrealised loss due to a change in fair value of the investment in an Irish government bond maturing in 2028 and the Corporate Bond Fund investment. This may not reflect the value which will be available in future because market values change and it is currently the Foundation's policy to hold such investments to maturity.

Of the total realised income of €1,144,104, the following movements were significant:

- The Irish credit union movement continued to provide important support for the work of the Foundation despite the ongoing challenges. Total income from CU and public donations amounted to €496,792 for the year 2022 (up from €454,807 in 2021). In overall there has been a small increase in regular CU donations which has been supplemented by appeals for Ukraine and the CU Challenge.
- External Funding support for the Foundation work decreased to €375,453 due mainly to the completion of the current IFAD contract in 2021 (2021: €528,609).
  - In 2022, the Foundation received Department of Foreign Affairs (DFA) grants totalling €320,000 (2021: €320,000). The total amount of income recognised from DFA grant in 2022 amounted to €278,620 (2021: €280,000) which relates to Civil Society Fund (CSF) co-funded programme in Sierra Leone called Step Up 2021-2024. The Foundation is very grateful to its local partners in Sierra Leone, ILCUF Ltd. and the apex body for Credit Unions in Sierra Leone, NaCCUA, for their ongoing positive engagement and commitment to the shared work in Sierra Leone and in helping to deliver on programme mandates despite the challenges posed by Covid-19.
  - DSIK has made available funding to the work of the Foundation in Sierra Leone through their 'Strengthening the Credit Union Associations in Ghana, The Gambia, Sierra Leone and Liberia in their organisational capacity' which allows for valuable capacity building financial support to NaCCUA and Sierra Leone Credit Unions. Total income in 2022 recognised by the Foundation reflects the expenditure on agreed completed projects in 2022 totalling €57,500 (2021: 92,000).
  - Corporate funders generously contribute to the work of the Foundation and €39,333 was recognised as income in 2022 (2021: 35,883).

Overall expenditure decreased to €1,110,368 (2021: €1,204,581) reflecting mainly due to a reduced level of activities in Sierra Leone.

- Expenditure on **charitable activities** amounted to €1,061,981 (2021: €1,153,902) with major projects in Ethiopia and Sierra Leone) benefitting primarily from this support. Smaller scale support for non-donor funded projects was also provided in Ukraine, The Gambia, and toward resources for South-South consultancy capacity building.
- Expenditure on **raising funds** was €48,387 (2021: €50,679).

All risks and developments, including those related to Covid-19 and the Russia-Ukraine conflict, will continue to be monitored on an ongoing basis in all programme countries and internationally and flexible, results-oriented, responsive adaptive programming will be used to mitigate any issues identified.

## **DIRECTORS' REPORT – continued**

### **Financial Overview of the Foundation in 2022 and Future Developments - continued**

#### **Reserves and Financial Position**

The Foundation is committed to a strategy that ensures that the Foundation's reserve levels are sufficient and that the organisation has a strong financial capital to maintain its current activities and grow in the future. The Board review the level of reserves annually.

The reserves of €2,463,070 at 31 December 2022 (2021: €2,630,418) are detailed in note 17 of the Financial Statements and are classified into three categories:

- The Gus Murray Memorial Endowment Fund of €2,000,000 (2021: €2,000,000) is a permanent endowment fund and was established as a memorial to Mr. Gus Murray. Its sole objective is to ensure funding obligations to the Foundation's existing credit union projects are met. In 2015, the Board approved an additional objective for the Fund that its annual investment income will be used to support the ongoing development programmes of the Foundation. In order for this to be achieved on a sustainability basis, the Board completed an in-depth review and agreed to increase the size of the Fund to €2 million and cap it at that figure. This was achieved in 2016 and the Fund's annual net realised income earned is utilised as an additional source of funding for development programmes. In the event of project funding shortages, to further the objectives of the Foundation, the Board have agreed that funds can be moved from the Gus Murray Fund, however the €2 million balance would be restored in due course.
- Restricted Reserves amounting to €142,020 (2021: €124,000) are unrestricted funds which have been transferred to restricted reserves to meet co-funding contractual obligations with institutional donors amounting to €142,020 (2021: €124,000).
- Unrestricted Reserves amounting to €321,050 (2021: €506,418) which are funds that relate to unspent incomes, which were given without any restrictions, expressed or implied as to how they may be applied. These reserves are classified as 1) Designated funds €297,000 (2021: €461,000) which are unspent unrestricted incomes which the Board wishes to designate for specific purposes appropriate to the mission and strategic priorities of the Foundation and 2) General (Free) Reserves €24,049 (2021: €45,418) which are the residual unrestricted funds available to the Foundation for general financial purposes in 2023.

#### **Political Contributions**

There were no political contributions in the year ended 31 December 2022, and as a result no disclosures are required under the Electoral Act 1997.

#### **Events since the End of the financial year**

There have been no significant events affecting the Foundation since the year end..

#### **Research and Development**

The Foundation did not engage in any research and development during the year.

## **DIRECTORS' REPORT – continued**

### **Transactions Involving Directors**

There were no contracts in relation to the affairs of the Foundation in which the Directors had any interest, at any time during the year ended 31 December 2022.

The names of the persons who were Directors at any time during the year 31 December 2022 are set out below. Unless otherwise stated indicated they served as Directors for the entire year:

Mr. Eamonn Sharkey

Ms. Vivienne Keavey

Mr. Jim Toner

Ms. Margaret Heffernan

Mr. Paul Gibbons

### **Business Review**

The income and expenditure for the year and the appropriation thereof are set out in the Statement of Financial Activities on page 19.

### **Going Concern**

Management have prepared cash flow forecasts for the Foundation based on committed grant income, cash at bank and ongoing credit union contributions. The Directors are satisfied based on the review of these forecasts that the Foundation has adequate resources to continue for at least twelve months from the date of approval of these financial statements and it is appropriate to adopt the going concern basis in the preparation of the financial statements.

### **Disclosure of information to auditors**

The directors in office at the date of this report have each confirmed that:

- As far as he/she is aware, there is no relevant audit information of which the Foundation's statutory auditors are unaware; and
- He/she has taken all the steps that he/she ought to have taken as a director in order to make himself/herself aware of any relevant audit information and to establish that the Foundation's statutory auditors are aware of that information.

**DIRECTORS' REPORT – continued**

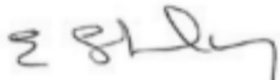

**Accounting records**

The measures taken by the directors to secure compliance with the Foundation's obligation to keep adequate accounting records are the use of appropriate systems and procedures and employment of competent persons. The accounting records are kept at 33-41 Lower Mount Street, Dublin 2, D02 Y489.

**Statutory Auditors**

Pursuant to Section 383(2) of the Companies Act 2014, the auditor, KPMG, Chartered Accountants, will continue in office.

**On behalf of the board**

**STATEMENT OF DIRECTORS' RESPONSIBILITIES IN RESPECT OF THE DIRECTORS' REPORT AND THE FINANCIAL STATEMENTS**

The directors are responsible for preparing the director's report and the financial statements in accordance with applicable law and regulations.

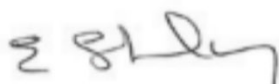

Company law requires the directors to prepare financial statements for each financial year. Under that law they have elected to prepare the financial statements in accordance with FRS 102 The Financial Reporting Standard applicable in the UK and Republic of Ireland and the Charities SORP (FRS 102).

Under Company law the directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the assets, liabilities and financial position of the Foundation and of its incoming resources and application of resources including its income and expenditure for that year. In preparing these financial statements, the directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgements and estimates that are reasonable and prudent;
- state whether applicable Accounting Standards have been followed, subject to any material departures disclosed and explained in the financial statements;
- assess the Foundation's ability to continue as a going concern, disclosing, as applicable, matters related to going concern; and
- use the going concern basis of accounting unless they either intend to liquidate the Foundation or to cease operations, or have no realistic alternative but to do so.

The directors are responsible for keeping adequate accounting records which disclose with reasonable accuracy at any time the assets, liabilities, financial position and its incoming resources and application of resources including its income and expenditure of the Foundation and enable them to ensure that the financial statements comply with the Companies Act 2014. They are responsible for such internal controls as they determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error, and have general responsibility for taking such steps as are reasonably open to them to safeguard the assets of the Foundation and to prevent and detect fraud and other irregularities. The directors are also responsible for preparing a director's report that complies with the requirements of the Companies Act 2014.

## **INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF ILCU INTERNATIONAL DEVELOPMENT FOUNDATION**

### **Report on the audit of the financial statements**

#### ***Opinion***

We have audited the financial statements of ILCU International Development Foundation ('the Charitable Company') for the year ended 31 December 2022 set out on pages 20 to 34, which comprise the statement of financial activities including profit and loss account, balance sheet, statement of cash flows and related notes, including the summary of significant accounting policies set out in note 3. The financial reporting framework that has been applied in their preparation is Irish Law and FRS 102 *The Financial Reporting Standard applicable in the UK and Republic of Ireland* issued in the United Kingdom by the Financial Reporting Council.

In our opinion:

- the financial statements give a true and fair view of the state of the Charitable Company's affairs as at 31 December 2022 and of its incoming resources and application of resources including its income and expenditure for the year then ended;
- the financial statements have been properly prepared in accordance with FRS 102 *The Financial Reporting Standard applicable in the UK and Republic of Ireland*; and
- the financial statements have been properly prepared in accordance with the requirements of the Companies Act 2014.
- have been prepared in accordance with the requirements of the Charities SORP (FRS102)

#### ***Basis for opinion***

We conducted our audit in accordance with International Standards on Auditing (Ireland) (ISAs (Ireland)) and applicable law. Our responsibilities under those standards are further described in the Auditor's responsibilities for the audit of the financial statements section of our report. We are independent of the Charitable Company in accordance with ethical requirements that are relevant to our audit of financial statements in Ireland, including the Ethical Standard issued by the Irish Auditing and Accounting Supervisory Authority (IAASA), and we have fulfilled our other ethical responsibilities in accordance with these requirements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

#### ***Conclusions relating to going concern***

In auditing the financial statements, we have concluded that the directors' use of the going concern basis of accounting in the preparation of the financial statements is appropriate.

## **INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF ILCU INTERNATIONAL DEVELOPMENT FOUNDATION (CONTINUED)**

Based on the work we have performed, we have not identified any material uncertainties relating to events or conditions that, individually or collectively, may cast significant doubt on the Charitable Company's ability to continue as a going concern for a period of at least twelve months from the date when the financial statements are authorised for issue.

Our responsibilities and the responsibilities of the trustees with respect to going concern are described in the relevant sections of this report.

### ***Other information***

The directors are responsible for the other information presented in the Annual Report together with the financial statements. The other information comprises the information included in the directors' report and in the appendix of the annual report. The financial statements and our auditor's report thereon do not comprise part of the other information. Our opinion on the financial statements does not cover the other information and, accordingly, we do not express an audit opinion or, except as explicitly stated below, any form of assurance conclusion thereon.

Our responsibility is to read the other information and, in doing so, consider whether, based on our financial statements audit work, the information therein is materially misstated or inconsistent with the financial statements or our audit knowledge. Based solely on that work we have not identified material misstatements in the other information.

Based solely on our work on the other information undertaken during the course of the audit, we report that:

- we have not identified material misstatements in the directors' report;
- in our opinion, the information given in the directors' report is consistent with the financial statements;
- in our opinion, the directors' report has been prepared in accordance with the Companies Act 2014.

### ***Opinions on other matters prescribed by the Companies Act 2014***

We have obtained all the information and explanations which we consider necessary for the purposes of our audit.

In our opinion the accounting records of the Charitable Company were sufficient to permit the financial statements to be readily and properly audited and the financial statements are in agreement with the accounting records.

### ***Matters on which we are required to report by exception***

The Companies Act 2014 requires us to report to you if, in our opinion, the disclosures of directors' remuneration and transactions required by Sections 305 to 312 of the Act are not made. We have nothing to report in this regard.

## INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF ILCU INTERNATIONAL DEVELOPMENT FOUNDATION (*CONTINUED*)

### Respective responsibilities and restrictions on use

#### *Responsibilities of directors for the financial statements*

As explained more fully in the directors' responsibilities statement set out on page 16, the directors are responsible for: the preparation of the financial statements including being satisfied that they give a true and fair view; such internal control as they determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error; assessing the Charitable Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern; and using the going concern basis of accounting unless they either intend to liquidate the Charitable Company or to cease operations, or have no realistic alternative but to do so.

#### *Auditor's responsibilities for the audit of the financial statements*

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (Ireland) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

A fuller description of our responsibilities is provided on IAASA's website at <https://iaasa.ie/publications/description-of-the-auditors-responsibilities-for-the-audit-of-the-financial-statements/>.

#### *The purpose of our audit work and to whom we owe our responsibilities*

Our report is made solely to the Charitable Company's members, as a body, in accordance with Section 391 of the Companies Act 2014. Our audit work has been undertaken so that we might state to the Charitable Company's members those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the Charitable Company and the Charitable Company's members, as a body, for our audit work, for this report, or for the opinions we have formed.

## **NOTES TO THE FINANCIAL STATEMENTS**

### **1 General Information**

The mission of the Foundation is to help alleviate poverty in developing countries by supporting credit unions and their representative bodies as a means for social-economic development through the provision of financial and technical assistance.

The main strategy employed by the Foundation to achieve this mission is co-funding long term programmes with developing credit union movements in selected countries.

The Foundation is incorporated in the Republic of Ireland under the Companies Act 2014 as a company limited by guarantee not having a share capital under registered number 144006. The Foundation is a registered charity with the Charities Regulatory Authority and meets the definition of a Public Benefit Entity under FRS 102. The address of its registered office is 33 - 41 Lower Mount Street, Dublin 2, D02 Y489.

The Foundation regards the Irish League of Credit Unions (ILCU) as its ultimate controlling party. The ILCU is the largest and smallest group of undertakings for which group financial statements are drawn up and of which the Foundation is a member. Copies of the financial statements of the ILCU are available at 33 - 41 Lower Mount Street, Dublin 2, D02 Y489.

These financial statements are the Foundation's separate financial statements.

### **2 Statement of compliance**

The entity financial statements have been prepared on a going concern basis and in accordance with accounting standards issued by the UK Financial Reporting Council and the Companies Act 2014. The financial statements comply with Financial Reporting Standard 102 "The Financial Reporting Standard Applicable in the UK and Republic of Ireland" (FRS 102). In addition, the Directors have voluntarily adopted the Statement of Recommended Practice applicable to charities, preparing their accounts in accordance with the financial reporting standard applicable in the UK and Republic of Ireland Charity SORP (FRS 102).

### **3 Basis of preparation and measurement**

#### **(a) Basis of Preparation**

The entity financial statements have been prepared under the historical cost convention, as modified by the measurement of certain financial assets and liabilities at fair value through profit or loss.

#### **(b) Going concern**

Management have prepared cash flow forecasts for the Foundation based on committed grant income, cash at bank and ongoing credit union contributions. The Directors are satisfied based on the review of these forecasts that they have a reasonable expectation that the Foundation has adequate resources to continue in operational existence for the foreseeable future. The Foundation therefore continues to adopt the going concern basis in preparing its financial statements.

#### **(c) Exemptions for qualifying entities under FRS 102**

FRS 102 allows a qualifying entity certain disclosure exemptions, subject to certain conditions, which have been complied with, including notification of, and no objection to, the use of exemptions by the Foundation's shareholders. In these financial statements, the Foundation has taken advantage of the following exemptions:

- i. from the financial instrument disclosure requirements of Section 11 paragraphs 11.39 to 11.48A and Section 12 paragraphs 12.26 to 12.29A of FRS 102.
- ii. from the related party disclosure of transactions under Section 33 of FRS 102 with the parent undertaking, Irish League of Credit Unions and also with wholly owned subsidiaries within the Irish League of Credit Unions Group.

## **NOTES TO THE FINANCIAL STATEMENTS**

### **4 Summary of significant accounting policies**

The significant accounting policies used in the preparation of the entity financial statements are set out below. These policies have been consistently applied to all financial years presented, unless otherwise stated.

The significant accounting policies adopted by the Foundation are as follows:

#### **(a) Incoming resources**

##### **Credit union and public donations**

Voluntary income, primarily derived from credit unions, which provides core funding to the Foundation and is recognised when received. However, income recognition may be deferred if there are future specific conditions attached to the donation which have not yet been met.

##### **External Funding**

###### **i. Institutional funding**

Income from government and other institutional donors' contracts or grants (whether "capital" grants or "revenue" grants), is recognised when the Foundation has entitlement to the funds, any performance conditions attached to the grant have been met, it is probable that the income will be received and the amount can be measured reliably.

###### **ii. Other funding**

Income from corporate donations and grants which are recognised when the Foundation has received the funds, and any performance conditions attached to the donation or grant have been met.

##### **Interest receivable**

Interest on funds held on deposit is included when receivable and the amount can be reliably measured by the charity; this is normally upon notification of the interest payable by the bank.

##### **Realised gains and losses**

Realised gains and losses, being the difference between the net sale proceeds and the cost of acquisition, are included in the Statement of Financial Activities as investment income.

##### **Unrealised gains and losses**

Unrealised gains and losses, being the difference between the market value at the end of the financial year and the market value at the beginning of the financial year or date of purchase if later, as adjusted for the reversal of unrealised gains and losses recognised in earlier accounting periods which are now realised, are included in the Statement of Financial Activities.

##### **Contributed Services and Facilities**

Contributed services and facilities are recognised as income in the period in which the Foundation has derived the economic benefit from those services and facilities and that economic benefit can be measured reliably on the basis of the value of the gift to the charity (which is deemed to be the amount the Foundation would have been willing to pay to obtain those professional services on the open market). A corresponding amount is then recognised in expenditure in the same period.

In accordance with the Charities SORP (FRS 102), general volunteer time is not recognised.

##### **Classification of Funds**

All transactions of the organisation have been recorded and reported as income into or expenditure from funds which are designated as "restricted", "endowment" or "unrestricted".

Income is treated as restricted where the donor has specified that it may only be used for a particular purpose and there are restrictions imposed on the treatment of any related surpluses. All other income is treated as unrestricted. Expenditure is treated as being made out of restricted funds to the extent that it meets the criteria specified by the donor. All other expenditure is treated as unrestricted.

The balance of the restricted funds at year end represents the asset held by the Foundation for particular purposes specified by the donor. The balance of the unrestricted funds at year end represents the assets held by the Foundation for general use in furtherance of its objectives. Endowment fund

## NOTES TO THE FINANCIAL STATEMENTS

### 4 Summary of significant accounting policies – continued

#### (a) Incoming resources

##### Classification of Funds – continued

represents amounts held in investments for the purpose of allowing the Foundation, in an orderly manner phase down funding to its partners over a number of years, where there is a sudden cessation of the Foundation activities. Annual income from these principal amounts are being utilised as an additional source of funding for Foundation programmes.

#### (b) Foreign currencies

##### (i) *Functional and presentation currency*

The Foundation's functional and presentation currency is the euro, denominated by the symbol "€".

##### (ii) *Transactions and balances*

Foreign currency transactions are translated into the functional currency using the spot exchange rates at the dates of the transactions.

At the end of each financial year foreign currency monetary items are translated to Euro using the closing rate. Non-monetary items measured at historical cost are translated using the exchange rate at the date of the transaction and non-monetary items measured at fair value are measured using the exchange rate when fair value was determined.

Gains and losses arising from foreign currency transactions and on settlement of amounts receivable and payable are dealt with in the Statement of Financial Activities.

#### (c) Impairment of non-financial assets

At each balance sheet date non-financial assets not carried at fair value are assessed to determine whether there is an indication that the asset (or asset's cash generating unit) may be impaired. If there is such an indication the recoverable amount of the asset (or asset's cash generating unit) is compared to the carrying amount of the asset (or asset's cash generating unit).

The recoverable amount of the asset (or asset's cash generating unit) is the higher of the fair value less costs to sell and value in use. Value in use is defined as the present value of the future pre-tax and interest cash flows obtainable as a result of the asset's (or asset's cash generating unit) continued use. The pre-tax and interest cash flows are discounted using a pre-tax discount rate that represents the current market risk-free rate and the risks inherent in the asset.

If the recoverable amount of the asset (or asset's cash generating unit) is estimated to be lower than the carrying amount, the carrying amount is reduced to its recoverable amount. An impairment loss is recognised in the profit and loss account, unless the asset has been revalued when the amount is recognised in other comprehensive income to the extent of any previously recognised revaluation. Thereafter any excess is recognised in the Statement of Financial Activities.

If an impairment loss subsequently reverses, the carrying amount of the asset (or asset's cash generating unit) is increased to the revised estimate of its recoverable amount, but only to the extent that the revised carrying amount does not exceed the carrying amount that would have been determined (net of depreciation) had no impairment loss been recognised in prior periods. A reversal of an impairment loss is recognised in the Statement of Financial Activities.

## **NOTES TO THE FINANCIAL STATEMENTS**

### **4 Summary of significant accounting policies – continued**

#### **(d) Employee Benefits**

The Foundation provides a range of benefits to employees, paid holiday arrangements and facilitates a revenue-approved Personal Retirement Savings Account (PRSA) scheme for employees.

##### *Short term benefits*

Short term benefits, including holiday pay and other similar non-monetary benefits, are recognised as an expense in the period in which the service is received.

#### **(d) Expenditure**

##### *Charitable activities*

Charitable activity expenditure is recognised once there is a legal or constructive obligation to make a payment to a third party, it is probable that settlement will be required and the amount of the obligation can be measured reliably.

Charitable expenditure comprises all those directly attributable costs - at Headquarter and country programme level - required to provide financial and technical assistance including consultancy fees, salaries, travel costs, accommodation costs, subsistence costs etc. These costs are recorded by specific activity and disclosed by country in note 11.

In addition, the ILCU, the Foundation's parent undertaking, has contributed certain administrative and professional services and facilities to the Foundation. The fair value of these costs have been estimated and are allocated on a pro rata basis to the charitable activities by country.

Governance costs relating to Board and compliance costs and Support costs relating to administrative and charitable activity support have also been allocated on a pro rata basis to the charitable activities by country.

Irrecoverable VAT is charged as a cost against the activity for which the expenditure was incurred.

##### *Raising funds*

Raising funds comprises all expenditure incurred directly by the Foundation on raising funds for the organisation's charitable activities. The related expenditure is recognised in the period in which it is incurred.

#### **(e) Related party transactions**

The Foundation discloses by way of a note to the financial statements any transactions with related parties which are not wholly owned with the same group.

#### **(f) Reserves policy**

Unrestricted funds are general funds which are available for use at the discretion of the directors in furtherance of the general objectives of the charity or which have been designated by the directors for specific purposes out of unspent unrestricted income in the period.

Restricted funds are funds which are to be used in accordance with specific restrictions imposed by donors or which are funds the Foundation is contractually obliged to provide from its unrestricted income reserves under a co-funding arrangement with an institutional donor.

Endowment fund is funds which are held as capital and intended to be held indefinitely.

#### **(g) Financial Instruments**

The Foundation has chosen to apply the provisions of Sections 11 and 12 of FRS 102 to account for all of its financial instruments.

## NOTES TO THE FINANCIAL STATEMENTS

### 4 Summary of significant accounting policies – continued

#### (h) Financial instruments – continued

##### *i. Financial assets*

###### *Trade and other debtors*

Trade and other debtors are initially recognised at transaction price (including transaction costs), unless the arrangement constitutes a financing transaction. Where the arrangement constitutes a financing transaction the resulting financial asset is initially measured at the present value of the future receipts discounted at a market rate of interest for a similar debt instrument.

Subsequent to initial recognition, trade and other debtors and cash and cash equivalents are measured at amortised cost less any impairment losses. Financial assets from financing arrangements cannot be measured at amortised costs, these are discounted.

###### *Cash and cash equivalents*

Cash and cash equivalents includes cash in hand, deposits held at call with banks, other short-term highly liquid investments with maturities of three months or less. Bank overdrafts are shown within borrowings in current liabilities. Cash and cash equivalents are initially measured at transaction price and subsequently measured at amortised cost.

Bank deposits which have maturities of more than three months are not cash and cash equivalents and are presented as current asset investments.

###### *Investments*

Investments in Government Bonds is carried at quoted market value on the active market at bid price. The investment in the Collective Investment Scheme is based on a Net Asset Value (NAV) that is published on a daily basis.

Subsequent to initial recognition, these investments are measured at fair value with changes recognised in profit or loss. Fair values are determined at prices quoted in active markets.

###### *Impairment of Financial Assets*

At the end of each financial year financial assets measured at amortised cost are assessed for objective evidence of impairment. If there is objective evidence that a financial asset measured at amortised cost is impaired an impairment loss is recognised in the Statement of Financial Activities. The impairment loss is the difference between the financial asset's carrying amount and the present value of the financial asset's estimated cash inflows discounted at the asset's original effective interest rate.

If, in a subsequent financial year, the amount of an impairment loss decreases and the decrease can be objectively related to an event occurring after the impairment was recognised, the previously recognised impairment loss is reversed. The reversal is such that the current carrying amount does not exceed what the carrying amount would have been had the impairment loss not previously been recognised. The impairment reversal is recognised in the Statement of Financial Activities.

Financial assets are derecognised when (a) the contractual rights to the cash flows from the asset expire or are settled, or (b) substantially all the risks and rewards of ownership of the financial asset are transferred to another party or (c) control of the financial asset has been transferred to another party who has the practical ability to unilaterally sell the financial asset to an unrelated third party without imposing additional restrictions.

## NOTES TO THE FINANCIAL STATEMENTS

### 4 Summary of significant accounting policies – continued

#### *ii. Financial liabilities*

Basic financial liabilities, including trade and other creditors and loans from fellow group companies, are initially recognised at transaction price, unless the arrangement constitutes a financing transaction. Where the arrangement constitutes a financing transaction the resulting financial liability is initially measured at the present value of the future payments discounted at a market rate of interest for a similar debt instrument.

Trade and other creditors, and loans from fellow group companies, are subsequently carried at amortised cost.

Trade creditors are obligations to pay for goods or services that have been acquired in the ordinary course of business from suppliers. Trade creditors are classified as due within one year if payment is due within one year or less. If not, they are presented as falling due after more than one year. Trade creditors are recognised initially at transaction price and subsequently measured at amortised cost.

Financial liabilities are derecognised when the liability is extinguished, that is when the contractual obligation is discharged, cancelled or expires.

#### *ii. Offsetting*

Financial assets and liabilities are offset and the net amounts presented in the financial statements when there is an enforceable right to set off the recognised amounts and there is an intention to settle on a net basis or to realise the asset and settle to liability simultaneously.

### 5 Critical judgments in applying the company's accounting policies

Estimates and judgements made in the process of preparing the Foundation financial statements are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

The directors make estimates and assumptions concerning the future in the process of preparing the entity financial statements.

#### *i. Charitable expenditure*

The Foundation has a number of charitable expenditure obligations. Accruals are recognised based on the estimated cash flow expected to be required to settle the Foundation's obligation under these constructive obligations and commitments. Judgements are used in determining the timing and level of expenditure to be recognised.

#### *ii. External Funding income recognition*

Income is recognised from external funding when the Foundation has (a) entitlement to the funds, (b) any performance conditions attached to the grant or contract are deemed to have been met, (c) it is probable that the income will be received and (d) the amount can be measured reliably. Some judgements are applied when determining whether all conditions have been met. The income may be deferred in such instances.

### 6 Group membership

The Foundation regards the ILCU as its ultimate controlling party. The ILCU is the largest and smallest group of undertakings for which group financial statements are drawn up and of which the Foundation is a member. Copies of the financial statements of the ILCU are available at 33 – 41 Lower Mount Street, Dublin 2, D02 Y489.

**NOTES TO THE FINANCIAL STATEMENTS**

**11 Cost of charitable activities - continued**

(a) Contributed services and facilities:

The ILCU, the Foundation's parent undertaking, has contributed certain professional services and facilities to the Foundation. The value of this gift of €270,201 (2021: €260,488) has been recognised in income and a corresponding amount has been recognised in expenditure. Specific donor restricted task related professional technical service consultancy services amounting to €nil (2021: €11,705) were donated to the Foundation by a number of individuals in 2022. The value of these gifts have been recognised as income and the corresponding amount has been recognised as expenditure within charitable activities. Contributed professional services and facilities have been allocated to charitable activities on a pro rata basis where applicable.

(b) The following costs have been allocated to charitable activities on a pro-rata basis:

- Governance costs €13,491 (2021: €24,001) relating to Board and compliance costs.
- Support costs €31,943 (2021: €28,991) relating to administration and charitable activity support costs.

<b>12 Financial assets</b>	Market value 2022 €	Cost 2022 €	Market value 2021 €	Cost 2021 €
Debt securities – Irish Government Bond	456,197	500,000	535,669	500,000

	Number	Number
Project Support	<u>5.5</u>	<u>5</u>

## **NOTES TO THE FINANCIAL STATEMENTS**

One employee of the ILCU who is considered to be key management personnel provides significant key management services to the Foundation and received a salary in the band €95,000 - €105,000 in 2023 and 2022.

As our international Credit Union partners have stated that technical advice and training is the most useful assistance the Foundation is providing a significant element of our support in the form of human resources.

None of the directors received any emoluments during the current year or prior year.

The Foundation provides access to a revenue approved PRSA and contribute a percentage of an employee's salary to the PRSA under certain conditions.

### **19 Financial Risk Management**

The Foundation is exposed to a range of financial risks. The risks that the Foundation primarily faces due to the nature of its charitable activities and investment activities are market risk (currency risk, interest rate risk and price risk), credit risk and liquidity risk. The Foundation does not use derivatives.

#### **Fair value**

Fair value is the amount for which an asset or liability could be exchanged between willing parties in an arm's length transaction. Fair values are determined at prices quoted in active markets. The Foundation has an investment in an Irish Government Bond which is carried at quoted market value on the active market at bid price. The investment in the Collective Investment Scheme is based on a Net Asset Value (NAV) that is published on a daily basis. The Foundation's remaining investments are in cash and deposits which are carried at amortised cost.

#### **(a) Market risk**

Market risk is the risk of adverse financial impact as a consequence of market movements such as currency exchange rates, interest rates, and other price changes. Market risk arises due to fluctuations in both the value of assets held and the value of liabilities.

The Foundation's risk management objectives which aim to minimise exposure to market risk in line with the overall risk appetite framework are:

- To adopt a conservative approach to investments and seek to safeguard the value of the funds;
- Hold sufficient investment values and investment liquidity to ensure all charitable expenditure commitments are met as they fall due;
- Ensure that there are appropriate policies and strategies in place including concentration risk management, counterparty risk management, and asset liability risk management to meet this objective; and
- Manage investment assets risk profile.

The Foundation has established policies and procedures in order to manage market risk and methods to measure it.

There were no changes to the Foundation's objectives, policies, and processes for managing market risk.

#### **(i) Currency risk**

The Foundation receives the majority of its income in Euro however significant amounts are received in foreign currencies (mainly Sterling and US Dollars). Where appropriate these amounts are transferred immediately into Euro on receipt. The Foundation's overseas programmes are primarily committed in Euro but a US Dollar balance is maintained to fund US Dollar commitments.

Our project partners' activities are currently denominated in three local non-core currencies and this by its nature may spread foreign exchange risk to the Foundation. However, the risk to the Foundation is currently judged to be minimal and is actively managed and monitored on an on-going basis.

## NOTES TO THE FINANCIAL STATEMENTS

### 20 Financial Risk Management - continued

#### (a) Market risk – continued

##### (ii) *Interest rate risk*

Interest rate risk is the risk that the value of future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Foundation is exposed to interest rate risk as it invests in an Irish Government Bond and a Corporate Bond Fund. The Foundation's assets are managed by an external investment manager in accordance with a conservative investment mandate. Investment management meetings are held regularly with the Foundation's investment adviser to ensure compliance with the investment policy in place.

##### (iii) *Price risk*

The Foundation is exposed to price risk arising from fluctuations in the value of financial instruments as a result of changes in the market price of its investment in an Irish Government Bond and the investment in the collective investment fund. The risk is managed by the Foundation maintaining an appropriate mix of financial instruments and adopting a conservative investment policy.

#### (b) Credit risk

Credit risk refers to the risk that a counterparty will default on its contractual obligations resulting in financial loss to the Foundation. The Foundation is exposed to the risk that the banks holding the Foundation's current and deposit accounts may not be in a position to repay on the funds deposited. The Foundation manages this risk by assessing the banks where cash deposits are held and by monitoring external credit ratings of the relevant banks on a regular basis.

The Foundation is also exposed to credit risk in respect of its investment in an Irish Government Bond and the investment in the collective investment fund. The Foundation manages this risk by review the credit rating of the counterparties in conjunction with the external investment advisors.

Trade and other debtors are also exposed to credit risk. The Foundation monitors collection of amounts receivable.

There were no changes in the Foundation's credit risk exposure in the financial year nor to the objectives, policies, and processes for managing credit risk.

The carrying amount of financial assets recorded in the financial statements, represents the Foundation's maximum exposure to credit risk.

#### (c) Liquidity risk

This is the risk that the Foundation will have temporary deficits in its cash flow in terms of meeting its day to day commitments. This generally arises from timing differences between income flows and expenditure outlays. The Foundation's liquidity is managed by holding deposits on short call notice, and by retaining sufficient designated reserves to cover cash flow requirements. When absolutely necessary, the Board can approve the securing of short term overdraft facilities with the Foundation's bankers; this has not arisen in the current or prior year.

There are risks associated with cash flows, particularly where the economic situation has the potential to reduce the amount or timing of income from voluntary contributions. The Foundation is sensitive to the reality that cash flows can lag behind associated programme expenditure, and the reserves policy of the Foundation is structured to ensure that unrestricted reserves are brought to a sufficient level to act as a cushion against any such cash flow sensitivities.

Details of the Foundation's going concern assessment is included in note 3.

## **NOTES TO THE FINANCIAL STATEMENTS**

### **21 Post Balance Sheet events**

There have been no significant events between the Balance Sheet date and the date on which the financial statements were approved by the Board which would require adjustment to the financial statements or any additional disclosures.

### **22 Approval of Financial Statements**

The financial statements were approved by the directors on 10 February 2023.
